Funding and cooperation opportunities for AI R&D

Cluster ICT, Media and Creative Industries

Manuel Friedrich, Berlin Partner für Wirtschaft und Technologie

Cluster
ICT, Media and Creative Industries

- Develop economical and technological **growth** in the Berlin-Brandenburg region

- Encourage and enable companies and research institutes to **work togehter** in funded projects and networks

- Strong focus on innovation topics, like **AI**

- **Monitoring** of funding programmes on national and internationals levels

- **Moderating** the initialization process for developing topics, finding partners, identifying the right funding programme and writing applications

BMBF funding
AI for IT security

- AI-based IT-security solutions with limited resources
  - Self-learning security, easy to use AI components, usage of learning and training data
- AI-based IT-security solutions for network security
  - Heterogeneous data sources for thread prediction, partially automated defense mechanisms
- Advancements for AI-based IT-security solutions
  - Demonstrations, including training data generation

(full call: see https://www.forschung-it-sicherheit-kommunikationssysteme.de/foerderung/bekanntmachungen/kiits)

- Info event from project management agency took place last week
- We identified some interesting approaches, mainly from research, which are looking for **cooperation partners**
- Please fill in the **list**, if you are interested to get connected to consortia → if we get enough response, we will organize cooperation meetings

BMBF funding
Computer Aided Photonics

- Development of new optical systeme, which use, besides other topics, self learning algorithms to **process optical data**.

- Aplication areas include intelligent sensor data fusion, self configuring systems, and real time imaging and diagnostics

- We offer an info event together with the project management agency, to find consortia to work with and to address specific questions to the project management agency

- Please check out https://bit.ly/2MAqUfK to find details and to register

Innovation Camp
AI for ICT SMEs

- We are looking for **AI companies** willing to

    - Share knowledge about AI

    - Think about application areas

    - Develop concepts and business models

  in cooperation with "traditional" ICT SMEs

- Stefan is the responsible person to contact directly stefan.goellner@berlin-partner.de

- Flyers for further information (in German language) at https://bit.ly/2Wpyuyv

(http://digital-bb.de/de/termine/innovation-camp-it-mittelstand-schwerpunkt-ki-anwendungen)

Thanks for your attention
